

The Japan Welding News For The World

SOLE ENGLISH WELDING & CUTTING

[Quarterly]

INFORMATION NEWS SOURCE FROM JAPAN

★ For foreign businessmen residing in Japan and overseas

★ For the purpose of introducing excellent technologies and public relations to the world

"The Japan Welding News For The World" is the sole English welding & cutting information news source from Japan to the world, the first issue published September 1997, has been issued four times a year (quarterly: Jan., Apr., Jul. and Oct.), Targeting those who engage in welding & cutting operations all over the world. This paper has been distributed widely at "Essen International Welding Fair" in Germany, "US-FABTECH International & AWS Welding Show" and "Beijing Essen Welding & Cutting Fair" in China, and has already been accepted by the readers all over the world. In addition, we also directly deliver to internationally well-known welding & cutting related industries (users, distributors and manufacturers).

We are in a position not only to introduce technological and marketing information of the world leading Japanese welding & cutting industries but also to spread the international excellence to the world. We hope if our paper could contribute to the growth of world's welding & cutting industries and for those who engage in its field.

We encourage you to subscribe to our news and to fully utilize the opportunity to promote your excellent technologies, which are suitable for public relations. We firmly believe our paper will serve all your sales and marketing needs since our readers are in worldwide welding and cutting industries.

Japan's One & Only Specialist English Medium on Welding & Cutting
